

Bureau of Land Management, Interior

§ 2320.3

States or its permittees or licensees to enter upon, occupy and use any and all of the lands for power purposes. Before any lands are declared open to location, entry or selection, the Secretary shall give notice of his intention to make this declaration to the Governor of the State within which such lands are located, and the State shall have a preference for a period of 90 days from the date of this notice to file under any applicable law or regulation an application of the State, or any political subdivision thereof, for any lands required as a right-of-way for a public highway or as a source of materials for the construction and maintenance of such highways. The 90-day preference does not apply to lands which remain withdrawn for national forest or other purposes.

(b) The Mining Claims Rights Restoration Act of 1955 (30 U.S.C. 621 *et seq.*), opened public lands which were then, or thereafter, withdrawn or classified for power purposes, with specified exceptions, to mineral location and development under certain circumstances.

§ 2320.1 Lands considered withdrawn or classified for power purposes.

The following classes of lands of the United States are considered as withdrawn or classified for the purposes of section 24 of the Federal Power Act (16 U.S.C. 818): Lands withdrawn for powersite reserves under sections 1 and 2 of the Act of June 25, 1910, as amended (43 U.S.C. 141-148); lands included in an application for power development under the Federal Power Act (16 U.S.C. 818); lands classified for powersite purposes under the Act of March 3, 1879 (43 U.S.C. 31); lands designated as valuable for power purposes under the Act of June 25, 1910, as amended (43 U.S.C. 148); the Act of June 9, 1916 (39 Stat. 218, 219), and the Act of February 26, 1919 (40 Stat. 1178, 1180); lands within final hydroelectric power permits under the Act of February 15, 1901 (43 U.S.C. 959); and lands within transmission line permits or approved rights-of-way under the aforementioned Act of February 15, 1901, or the Act of March 4, 1911 (43 U.S.C. 961).

§ 2320.2 General determinations under the Federal Power Act.

(a) On April 22, 1922, the Federal Power Commission (as predecessor to the Federal Energy Regulatory Commission) made a general determination "that where lands of the United States have heretofore been or hereafter may be reserved or classified as powersites, such reservation or classification being made solely because such lands are either occupied by power transmission lines or their occupancy and use for such purposes have been applied for or authorized under appropriate laws of the United States, and such lands have otherwise no value for power purposes, and are not occupied in trespass, the Commission determines that the value of such lands so reserved or classified or so applied for or authorized, shall not be injured or destroyed for the purposes of power development by location, entry or selection under the public land laws, subject to the reservation of section 24 of the Federal Power Act."

(b) The regulations governing mining locations on lands withdrawn or classified for power purposes, including lands that have been restored and opened to mining locations under section 24 of the Federal Power Act, are contained in subpart 3730 and in Group 3800 of this title.

§ 2320.3 Applications for restoration.

(a) Other than with respect to national forest lands, applications for restoration and opening of lands withdrawn or classified for power purposes under the provisions of section 24 of the Federal Power Act shall be filed, in duplicate, in the proper office of the Bureau of Land Management as set forth in § 2321.2-1 of this title. No particular form of application is required, but it shall be typewritten or in legible handwriting, and it shall contain the information required by 18 CFR 25.1. Each application shall be accompanied by a service charge of \$10 which is not returnable.

(b) Favorable action upon an application for restoration shall not give the applicant any preference right when the lands are opened.
